

REMARKS

Applicant requests that the four sheets of drawings, containing Figs. 1 to 12, now on file in the application be replaced with the enclosed four sheets of drawings containing the same Figs. 1 to 12.

The purpose of the amendment is to replace the informal patent drawings initially filed with the application with formal patent drawings which comply with the drawing requirements of the Office.

No new matter has been added in the new drawings.

DRAWING AMENDMENTS

The enclosed four sheets of formal drawings, each labeled 'Replacement Sheet' and containing Figs. 1 to 12, are to replace the four sheets of informal drawings now on file in the application.

The first and second sheets of the new drawings, containing Figs. 1 to 8, differ from the first and second sheets of the old drawings, containing Figs. 1 to 8, only by having Fig. 4 on the second sheet of the drawings instead of on the first sheet. This amendment was made to space the drawings in orderly fashion within the margins of each sheet.

No other changes have been made to the drawings.
